

CY-326/ CS-411 Blockchain

Semester Project [CLO-3, GA-5]

Submission Deadline: April 21, 2026

Maximum Marks: 10 marks

Create a smart contract in Ethereum using Solidity for supply chain management that tracks a product from manufacturer to retailer, ensuring transparency, immutability, and role-based access control for stakeholders (manufacturer, distributor, retailer). This is a group activity, where each group shall be composed of 4 members. There will be a presentation of the project also to demonstrate the smart contract.
